

WIRE MESH BASKETS

ErgoStor™ has designed the Cleanstor® range of wire baskets that includes wire basket cabinets and racks for improved infection control and hygiene.

All Wire Mesh Baskets have small spaces between wires so small packs and vials do not fall through the basket:

- MB3** Wire Mesh Basket 10 5/8 inch x 16 1/4 inch

Baskets MB3 and MB4 have Wire Dividers to segment the baskets:

CLEANSTOR® MESH BASKETS ON BASKET STRIPPING

Typically mesh baskets have been fitted to walls on louvre or bin panels permanently fixed to the walls. They collect dust and do not allow walls to be cleaned. Cleanstor® Basket Stripping is a white powder coated strip attached to the wall into which baskets are clipped. This allows baskets and the wall to be easily and regularly cleaned.

CLEANSTOR® MESH BASKETS ON LOUVRE PANELS

As many hospitals already have louvre panels on the walls of Medications Rooms, Cleanstor® Wire Mesh Baskets also fit onto existing or new louvre panels.

CLEANSTOR® MESH BASKETS ON GONDOLAS

All Wire Mesh Baskets can also be fitted to ErgoStor™ Single or Double Sided Gondolas that have Punched Panels. This is a novel way to store medications and surgical consumables together on the one fixture or gondola.
