

# Don't let facing up milk your profit

Put gravity to work with our gravity feed shelving and save time and money in facing up your milk.

## LET GRAVITY GROW MILK SALES

### Milk Flow Trolley

The ErgoStor™ Milk Flow Trolley has been developed to merchandise the many varieties of milk in the dairy coolroom. Milk is rear loaded and gravity feeds to the front. This automatic facing of the milk provides a superior presentation compared to milk stored on flat shelves.

The Milk Flow Trolley has four robust castor wheels that make it easy to remove the trolley for cleaning. Each trolley has two galvanised Drip Trays to collect milk spills.

#### Key Benefits:

- Superior merchandising
- Fast rear loading
- Dated stock rotation
- Easy clean
- Easier customer access

Milk Flow Trolley		
Height	Width	Depth
